

JOHN T. GEARY
Colonel, Coast Artillery Corps, P. M. S. & T.

THE military units in the University of Cincinnati are maintained under the provisions of the National Defense Act. This act makes provision for an Officer's Reserve Corps.

The college men of today will necessarily be among the leaders of the future. They realize that the privileges and rights of citizenship carry corresponding responsibilities. Many of them undergo a limited military training to the end that they may help develop and lead our great man-power should a national emergency call out the armed forces of the nation.

John T. Geary
