 MARY HUFFORD *President, '31*
 DORIS WEINGARDNER *President, '32*

AS GRADUATION draws near, we all seem to leave all inner conflict of feelings. We are eager to break our institutional bonds and to enter new fields filled with novel experiences and exacting responsibilities; yet, we take leave reluctantly. We appreciate the efforts of those who made possible our opportunities for higher education and we hope our future accomplishments will be a compensation for their efforts.
