THE FAMILIAR CRACK! as ball meets bat, together with the vibrant cries of eager participants, heralds in each spring the baseball season at Varsity. Perhaps it is the combination of the springtime freshness and the ever-apparent appeal that baseball has for men and women alike that makes this game doubly popular. However one may wish to account for it, there is the existing popularity which is evidenced by the large gatherings down on the field in the late spring afternoons when two league teams line up for one of their warmly contested games.
