## The Rifle Team

*Coach*.....CAPT. HARRY L. CAMPBELL, ORD., U. S. A.  
*Team Captain*.....R. L. SOLYOM  
*Team Manager*.....W. J. WENZEL

**A**LTHOUGH losing at mid-season several of last year's letter men, the team has been going along in great shape. A majority of the matches scheduled have been won and the prospects are excellent for this year's team excelling the achievements of last year. A number of very good shots have been found among the new men; consistent practice has made top-notchers out of some of last year's men, and the spirit generally is at a higher level than ever before. Credit for a very great deal of this year's progress must go to Sgt. Miller for his never-failing co-operation, while Sgt. Donahue has been of very great aid to the coach, Capt. Campbell, in carrying along the work.

Several foreign matches have been scheduled, particularly with the English universities, thus carrying the name, and incidentally the fame, of our school abroad. To round out the training as many shoulder to shoulder matches as possible have been scheduled, thus counteracting the principal weakness of last year's team.

Rifle marksmanship as a sport is growing rapidly in popularity both at U. C. and at practically all other colleges and universities, and in view of our successful records for the past several seasons it is our earnest hope to soon see it established as one of the minor sports at U. C.
