

# WOMEN'S VIGILANCE COMMITTEE

The frosh co-eds are still a bit dizzy with college, and things. That's why the Vigilants created Friday-noons.

Showing Little Eva, making a dash after an escaping frosh, during a freshmen "rush" on the Vigilants.

Ruth Lueders

The Chief (herself) first in command of the Society for the Discouragement of Hi School Superiority Complexes in Freshmen. Ruthy is seen in a characteristic pose. She may be singing, sneezing, or making a speech, we can't quite make out.

To the right is a periodical annoyance to freshmen. They lament their woes as such visions as this loom large upon their intellectual horizons. No sooner have they recovered from one Friday's spasm, than another ill-omened day with all its attendant discomforts is at hand.

Violet Balastra
