

Nineteen-Thirty-One

Please don't get the idea from the picture of the Kappa Christmas dance that the Kappa don't have any males around. On the contrary did you ever see a Kappa anywhere without several males around?

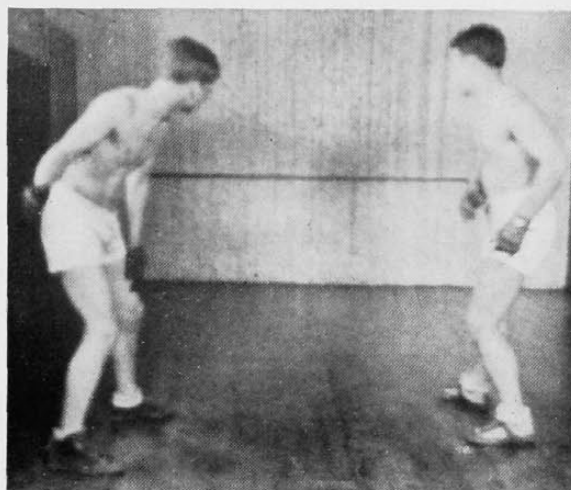

Kappa Christmas Formal

William (Libretto) Leach

The perils of winter cannot dampen the spirits of our burgeoning author. To show that he defies all silly conventions and mocks the cold weather, Willy blandly sits, hand on hip, before McMicken, unbehatted, unovercoated, unconscious now that he is again chosen to write the script for the musical comedy (being a Lambda Chi). He is wondering whether to plagiarize a different story or to raise his "Sunken University" from its watery grave.

Since Leach no longer interviews coaches, he has abandoned his athletic career and is seldom seen with the he-men playing handball or soccer in the gym.
