

*Theta Kite*

they call 'em slumber parties

The Theta kite looks like it might be greeting the arrivals at a Theta slumber party. Notice the two little honies above watching the world with wide blue, wary blue eyes. Perhaps they are enjoying a Tri Delt pajama party. And then again perhaps not. Little goldilocks on the right has been taking a course in typing on the side. She can be as bashful as anybody during the day. But not so at night. They are working on the touch system now. Daytimes, we mean.

The women's dorm is often the scene of those hilarious events called slumber parties. For the benefit of Freddy Frosh let us state that they are so named because girls do everything but sleep on a slumber party. However, little is known about these female orgies except that the cigarette consumption is enormous. Very few girls seen in the women's dorm snaps could be inveigled into entering the Cincinnati beauty contest. They hate cheap publicity.
