

Track results at the University of Cincinnati were about as bare as the lightly clad trackmen themselves. In an abbreviated schedule of four dual meets, the Bearcats were able to defeat only Denison University and took it smack on the nose from Miami's great team and from the University of Kentucky trackmen. The other dual meet was lost to Carnegie Tech. by one-third of a point. In the Buckeye Conference Meet at Cincinnati the hosts collected but 18 points for a fifth place.

Nikoloff's tracksters trod to Athens, Ohio for their first dual meet and came home with a 76 to 55 trouncing. Charlie Patten did excellent work for Cincinnati in the two hurdle events, collecting ten points for the Red and Black. Bill Marshall, diminutive pole vaulter, won his event with a leap of twelve feet; Curley Metz won the discus throw, and Flemming came out first in the high

jump for the only first places won by the Cincinnati delegation.

Its too bad for U. C. that Denison withdrew from the Buckeye. Our lads defeated the Denisonians 79 to 52 on the home field. It was due to this meet that most of Coach Nikoloff's boys gathered enough points for their letters. Curley Metz proved to be the Cincinnati highlight by collecting eleven points, five in the pole vault, five in the discus by heaving it 125', 6" for a new U. C. record, and one point in the shot put. Earl Soesby ran the mile, that gruesome event, in great time to win his event. Our boys then climaxed the meet by winning the mile relay.

For the third meet Coach Nikoloff took his boys to Pittsburgh to meet Carnegie Tech. in the first track meet ever held between the two universities. It proved to be the most hotly contested battle of the season. Not once during the meet did either team have enough points for a safe margin of victory. U. C. had a slim edge over the Carnegie Tech. men in the events actually competed, but as the meet was held in Pittsburgh where I. C. A. A. A. rules prevail, which require the hammer event, our genial hosts collected nine points in that event without having a Cincinnati man compete against them. Coach Nikoloff tried to have the hammer event dropped from the meet, for the Red and Black never has included that event in any of its track meets during the history of the school; but as the Carnegie Tech. Coach demanded that the event be included, Coach Nikoloff gave the Skibos their nine points and returned home on the short end of a 70 1/3 to 69 2/3 score.
