The social aspect of the group was supplied by the Mummer's Teas, which were held at intervals and were the occasion for the presentation of one-act plays directed by talented students. Many of these plays also were given for organizations not associated with the University. This year the group has adopted a constitution and by-laws providing for executive committee control and with restriction of membership.

With the traditional Mummer's Frolic, the season closed, leaving the memories of an eventful year.
