La Tertulia is organized to furnish and create interest in Spain and South America and to afford students of Spanish an opportunity to converse in Spanish.

Meetings are arranged so as to give students a chance to listen to Spanish spoken by native Spaniards, through the consuls of various South American countries and business men from those countries. Plays are produced in Spanish and popular songs of Spain are a feature of the greater part of the meetings.

Initiation into the club depends not only on knowledge of Spanish, but also upon congeniality with the interests and aims of the group.
