

THE LURE OF THE ORCHESTRA

What is it that lures the girls to join the orchestra? It is the attraction for good music and real companionship which is enjoyed by the orchestra members. This is the reason why the girls wish to be members and regret when the time comes to leave.

The orchestra affords many opportunities for entertaining the public. One of our first appointments of the season was a Roosevelt Tea at Alms Hotel. During the Yuletide we gladdened the hearts of the inmates of St. Francis Hospital and others in charitable institutions. In January we aided a Missionary Benefit by playing for the St. Elisabeth Pageant. Early March found us active during Girls' Hobby Fair Week and at the Mother-Daughter Luncheon at the Netherland Plaza Hotel. We accepted the invitation of the Catholic Federation of Alumnae to entertain the religious communities of the city Easter Monday at the Andalus Theatre. The Spring recitals would not have been complete without the orchestra. May finds us playing for our Senior class play, "Once in a Palace." The last one of the appointments of the season is our Class Night program.

Become a member of the orchestra and participate in its pleasures and benefits, is a tip from the 1932-1933 orchestra directress.
